THE IDEA

Montec makes leather for people who have nothing to prove and everything to protect — their time, their reputation, their word. Nothing shouts. Everything lasts. This book is the discipline that keeps it that way.

01.1 · THE IDEA, IN FULL

Montec belongs to the "old money" tradition of luxury: value carried quietly, legible only to those who know what they are looking at. The logo is small. The leather is the loudest thing in the room, and it never raises its voice. Our customer is the founder, the financier, the lawyer — someone whose success is already established and who wants an object that reflects it without announcing it.

We are not affordable luxury. We are **earned** luxury — the world's finest materials, made at home in Armenia, offered only to those who ask.

Quiet. Restraint over spectacle. We remove before we add.

Permanent. Made to outlast trends and, ideally, their owner.

Ours. Armenian craft carried with pride, at home and across the diaspora.

“I am not rich enough to buy cheap things.”

The line for the object itself — why the price is the price.

“Craftsmanship and strategy for those who write history.”

The line for the customer — who Montec is made for.

Six rules. Break one, lose it.

- 2.1 No logos, loud
- 2.2 No discounts, ever
- 2.3 By application
- 2.4 Numbered batches
- 2.5 Material honesty
- 2.6 Made at home

02 · THE OLD-MONEY CODE

The rules that make it luxury.

01 No logos, loud The mark is a whisper, never a billboard. Recognition is for insiders, not passers-by.	02 No discounts, ever The price is the price. A markdown is a confession that the first price was a lie.	03 By application You are admitted, not sold to. The purchase is an acceptance, and scarcity is real.
04 Numbered batches Limited, dated, finite. Owning an early piece means something and always will.	05 Material honesty Full-grain, vegetable-tanned. We show the making. Nothing is corrected or hidden.	06 Made at home Italian leather, Armenian hands. Local production is not a compromise — it is the point.

One mark. Infinite restraint.

- 3.1 The wordmark & monogram
- 3.2 Clearspace
- 3.3 Minimum sizes
- 3.4 Positioning
- 3.5 Additional versions
- 3.6 Don'ts

03.1 · THE WORDMARK & THE MONOGRAM

MONTEC set in Cormorant Garamond, medium weight, with generous 0.22em letter-spacing. The tracking is the signature. Always upper-case. Never condensed, never italic, never re-drawn.

Two overlapping triangular peaks forming a stylized mountain silhouette — the "Mont" of Montec, made visible. This is the only mark that ever touches the product, embossed tonally — felt more than seen.

03.2 · CLEARSPACE

The clearspace unit is the cap-height of the "M." Nothing enters that margin on any side — it is the minimum, not a suggestion.

03.3 · MINIMUM & RECOMMENDED SIZES

Three usage tiers plus the standalone mark, sized off the real logo artwork. Absolute floor: 120px digital / 26mm print — below that, use the mark alone.

			ORIGIN
S	M	L	Detail
Mark · 15mm	Logo · 45mm	Logo · 70mm	3.5-4mm

03.4 · POSITIONING

Primary — top-left. The lead position across the site, product pages, decks and stationery.

Secondary — bottom-center. A sign-off: packaging cards, letterhead footers, document close.

03.5 · ADDITIONAL VERSIONS

03.6 · DON'TS

Six ways to break the mark.

✕ Don't stretch Never distort the proportions. Scale uniformly, always.	✕ Don't change tracking or weight 0.22em spacing and medium weight are the wordmark.	✕ Don't fill with colour No ink, no foil, no gradient — blind emboss, tone-on-tone, always.
✕ Don't redraw the peaks Fixed geometry. No rounding, no simplifying.	✕ Don't place on clutter Busy or low-contrast grounds need a solid clearspace pad.	✕ Don't default to foil Gold foil is for hero/cover imagery only, never everyday branding.

Near-black and brass.

- 4.1 Primary palette
- 4.2 Secondary palette

04.1 · PRIMARY PALETTE

A disciplined, three-plus-one palette. Ratio guide — Obsidian 70% · Anthracite/Paper 24% · Brass 6%. Brass is a seasoning, not a sauce.

			
Obsidian #0A0A0A The ground. Backgrounds, the wordmark, the product's soul.	Brass #B8975A The single accent. Hardware, rules, emphasis. Use sparingly.	Anthracite #2B2B2B The mid-tone. Panels, dividers, depth without contrast.	Warm Paper #FAF8F3 Light ground for print & documents. Where prose reads.

04.2 · SECONDARY PALETTE

Used to add variety without breaking discipline — never as a replacement for the primary four.

A serif that
carries the name.

- 5.1 Type specimens
- 5.2 Type hierarchy
- 5.3 Armenian & Cyrillic

05.1 · TYPE SPECIMENS

DISPLAY · CORMORANT GARAMOND

Quiet is the loudest luxury.

TEXT · INTER

Everything you need to read, and nothing you notice.

05.3 · ARMENIAN & CYRILLIC COMPANIONS

Cormorant Garamond and Inter are Latin-only. English is the launch language; Armenian and Russian follow. A companion pair is specified now rather than improvised later.

Ա ա Մ մ

Noto Serif Armenian

Pairs with Cormorant Garamond. Free, open-source (SIL OFL), full Armenian Unicode coverage.

Ա ա Ընկերություն

Noto Sans Armenian

Pairs with Inter for body/UI/captions. Same Noto family as the display companion.

A a MOHTEK

Cyrillic (Russian)

Inter's own set already covers Cyrillic — verify the exact build. If Cormorant lacks Cyrillic, use Noto Serif (Cyrillic) as fallback.

A recommendation to sign off before the Armenian/Russian copy pass begins — not yet used in production.

Restrained.
Unhurried. Certain.

06.1 · WE SAY / WE NEVER SAY

We speak the way our customer does: fewer words, chosen well. We never hype, never exclaim, never chase.

WE SAY	WE NEVER SAY
— The price is the price.	× Sale · Discount · Limited-time offer
— Made at home, from the world's finest leather.	× Luxurious!! · Amazing deal · Must-have
— Owned by those who ask.	× Buy now · Don't miss out · Hurry
— It will outlast the trend, and probably you.	× Cheap · Affordable · Budget
— Quiet is the loudest luxury.	× Anything with an exclamation mark.

The unboxing
is the handshake.

08.1 · BOX · INSIDE · GIFT EDITION

The box

Rigid, matte near-black, blind-embossed monogram on the lid. No print, no colour, no cellophane.

Inside

Cotton dust bag, warm-paper card with batch number and owner's name. Letterpress, brass foil monogram only.

The gift edition

For corporate programmes: recipient's initials engraved, a personal card, the same box.

Show the grain.
Never the price.

09.1 · PHOTOGRAPHY · MOTION · WORLD · NEVER

Photography

Low, directional light on near-black grounds. Extreme macro on grain, stitch, burnished edge, brass being set.

Motion

Cinematic vertical 9:16. The cut, the closing of a deal, the patina after years.

The world we depict

The desk, the boardroom, the lounge, the handshake — aspirational but plausible.

Never

No bright backgrounds, no clutter, no stock-photo smiles, no price overlays, no sale stickers.

Contour lines,
quietly.

10.1 · THE PATTERN

A fine brass hairline grid on obsidian — quiet enough to read as texture, structured enough to nod at a topographic map.

When to use

Packaging interiors, print document inside-covers, digital section dividers — behind a dominant headline or logo.

When to avoid

Never behind hero photography, never at full opacity, never combined with the gold-foil logo.

The paper trail of a B2B house.
